

Microsoft Hosted SharePoint

Get everyone on the same page with Microsoft Hosted SharePoint from CenturyLink. Share ideas, answer questions and participate on collaborative projects with SharePoint website publishing and reporting, all on an Internet portal. Or, quickly upload files directly from any Microsoft Office application and track changes with people inside or outside your organization. Remember, we don't just claim reliability when it comes to your applications – they're hosted on our cloud, so you get the benefits of cost-efficiency and security without the worries of day-to-day application management. Plus, our 99.99% uptime SLA beats the industry standard, so you'll have access to your files when you need them.

Standard Features

Microsoft Hosted SharePoint plans are as convenient as they are useful:

Since there's nothing to manage, there's no need to train your team on maintenance or setup.

SharePoint 2010 works on mobile and across geography.

With our management control panel, you can quickly configure and manage your SharePoint 2010 environment.

Leave the maintenance and housing to us. Our Microsoft-certified professionals maintain your SharePoint server in our high-tech data centers.

The web interface enables you to add and remove users, change permissions, utilize templates, and manage other important account and SharePoint site settings easily, and in real time.

99.99% uptime SLA

FastForward Onboarding from CenturyLink gives you the support you need from setup through management and so much more.
